PROFILE

As a second-year Computer Science student at The University of Cambodia, I have developed a strong skill set in programming, web development, and UI/UX design. Proficient in Figma, HTML5, CSS3, JavaScript, and React.js, I am capable of creating intuitive and responsive web applications. My participation in the Career Acceleration Program and Sister of Code Ambassadors has enriched my technical knowledge and professional growth. I am dedicated to applying my skills to innovative projects and contributing to impactful technological solutions.

WORK EXPERIENCE

School Project
